

MD SIFAT BIN ANWAR

Full-Stack Web Developer | Backend-Focused

Chattogram, Bangladesh · +880 1778625668 · sifatbin.official@gmail.com · [Portfolio](#) · [GitHub](#) · [LinkedIn](#)

PROFESSIONAL SUMMARY

Full-Stack Web Developer with strong hands-on experience in building scalable, secure, and database-driven web applications, with a backend-focused approach and strong command of Node.js, Express.js, and RESTful API design. Skilled in MongoDB, PostgreSQL, JWT-based authentication, and modern frontend development with React.js and Next.js. Built 15+ independent projects, including admin/user dashboards and analytics systems, while solving 200+ programming challenges to strengthen problem-solving and software development skills.

CORE SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Tailwind CSS, React Router, React Hook Form
- **Backend:** Node.js, Express.js, RESTful API Development, JWT Authentication, Authorization, Middleware, MVC Architecture
- **Database:** MongoDB, Mongoose, PostgreSQL
- **State & Data:** Zustand, TanStack Query, Axios
- **Tools & Services:** Git, GitHub, Postman, Vite, Cloudinary, Nodemailer, Brevo SMTP
- **Core Areas:** Authentication & Authorization, Database-Driven Applications, Admin/User Dashboards, Analytics, API Validation, Error Handling, Scalable Architecture.

SELECTED PROJECTS

Task Management Application / *React, Node.js, Express.js, MongoDB*

- Designed and developed a full-stack task management application enabling users to create, organize, update, and track tasks through a clean, responsive interface.
github.com/sifatshams/task-management-app

Advanced Full-Stack Portfolio and Management Platform / *React.js, Next.js, Node.js, Express.js, MongoDB*

- Engineered a full-stack platform with secure authentication, RESTful APIs, role-based dashboards, analytics, and structured data management. Integrated cloud media and email services to support a complete and scalable application workflow.
sifatcoder.vercel.app / github.com/sifatshams/sifats-personal-portfolio

News Portal Application / *Node.js, Express.js, React.js*

- Developed a dynamic, content-driven news portal with backend APIs for publishing and retrieving news content. Built a responsive React.js frontend with a structured application architecture for a smooth and organized user experience.

EXPERIENCE

Data Entry and Web Research Specialist / *Freelance, Remote, Project-Based*

- Conducted in-depth online research to identify, collect, and organize structured business data — including company profiles, contact details, and industry-specific information — for an international client, using Excel-based tools and spreadsheet workflows.
- Performed rigorous data verification and quality control checks at each stage of the process, cross-referencing multiple sources to ensure accuracy, consistency, and reliability across all deliverables.
- Managed project-based tasks independently under tight deadlines, maintaining clear communication with a remote client and consistently delivering well-structured, delivery-ready datasets.

Computer Hardware Training & Practical Experience / *Raj Computer | 2021, approximately 7 months*

- Gained hands-on, practical knowledge of computer hardware components, assembly, and system architecture by assisting with real client systems on a daily basis.
- Diagnosed and resolved common hardware issues through systematic troubleshooting, developing a methodical approach to identifying root causes rather than surface-level symptoms.

EDUCATION

Bachelor of Business Administration (BBA), Honours – Accounting / *National University Bangladesh*

Higher Secondary Certificate (HSC) / *Hathazari Government College | 2023 – 2025*
