

MD SIFAT BIN ANWAR

Full-Stack Web Developer | Backend-Focused

Bangladesh • +880 1778625668 | sifatbin.official@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Full-Stack Web Developer with 4+ years of continuous learning and hands on development experience, backend focused with strong command of Node.js, Express.js, and RESTful API design. Skilled in building secure, database driven applications using MongoDB, PostgreSQL, and JWT-based authentication, alongside modern frontend development with React.js and Next.js. Built 15+ independent projects, including admin/user dashboards and analytics systems, and solved 200+ programming challenges.

CORE KEYWORDS & SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Tailwind CSS, React Router, React Hook Form

Backend: Node.js, Express.js, RESTful API Development, JWT Authentication, Authorization, Middleware, MVC Architecture

Database: MongoDB, Mongoose, PostgreSQL

State & Data Fetching: Zustand, TanStack Query, Axios

Tools & Services: Git, GitHub, Postman, Vite, Cloudinary, Nodemailer, Brevo SMTP

Core Areas: Authentication & Authorization, Database-Driven Applications, Admin/User Dashboards, Analytics, API Validation, Error Handling, Scalable Architecture

EXPERIENCE

Full-Stack Web Developer

Self-Employed / Independent Developer | 2022 – Present

- Designed and developed full-stack web applications with a focus on backend engineering, building RESTful APIs and server-side logic using Node.js and Express.js.
- Implemented JWT based authentication and authorization systems with protected API workflows and middleware-driven request handling.
- Designed and managed database driven applications using MongoDB, Mongoose, and PostgreSQL, applying MVC principles for maintainable architecture.
- Built responsive, interactive frontends with React.js and Next.js, including admin dashboards, user dashboards, and analytics and data management features.
- Delivered 15+ development projects and solved 200+ programming and problem-solving challenges; used Git and GitHub for version control throughout.

Data Entry and Web Research Specialist

Freelance, Remote, Project-Based

- Conducted online research and organized structured business data, including contact and company information, for an international client using Excel-based tools.
- Performed data verification and quality checks to ensure accuracy and consistency across deliverables.

Computer Hardware Training & Practical Experience

Raj Computer | 2021, approximately 7 months

- Developed hands on knowledge of computer hardware, troubleshooting, maintenance, and system setup through practical work on real client systems.

SELECTED PROJECTS

Advanced Full-Stack Portfolio and Management Platform

Technologies: React.js, Next.js, Node.js, Express.js, MongoDB

Link: <https://sifatcoder.vercel.app/>

- Engineered a full-stack platform featuring secure authentication, RESTful APIs, role-based dashboards, analytics, data management, and integrated cloud media and email services.

News Portal Application

Technologies: Node.js, Express.js, React.js

Link: <https://github.com/sifatshams/news-portal-app>

- Built a dynamic, content-driven news portal with backend APIs for content publishing and data retrieval.
- Developed a responsive frontend interface backed by structured application architecture.

User Management Backend API

Technologies: Node.js, Express.js, MongoDB

Link: <https://github.com/sifatshams/user-management-backend>

- Built a RESTful backend API for user management, covering server-side logic and database-driven operations.

EDUCATION

Bachelor of Business Administration (BBA), Honours - Accounting

Nazirhat University College | 2026 – Present | Currently studying in 1st Year

Higher Secondary Certificate (HSC)

Hathazari Government College | 2023 – 2025
